

# MONTESSORI FOR THE HOME

With a rain gutter or pvc pipe, a few bars of soap, tooth pics, fabric, scissors and a glue gun - race bars of soap!

## Fun in the Sun

Summer is the perfect time of year to get out of the house, soak up some vitamin D, and have a little water fun. Here is a round-up of 5 fun activities to keep your little one busy during the hot months of summer. Say no to bored and yes to fun!

With a plastic bottle and a drill, create a DIY sprinkler. Your toddler will love running thru the water, perfect for cooling off.

Using a tarp, a sprinkler and some balls - make your own splash pad.

Your little one will love riding his scooter, or driving his push car thru this kiddie car

Filling your child's water guns with paint or water chalk can be a great way to have fun in the sun while creating some beautiful and unique art!
